100% SATISFACTION GUARANTEED

Made in USA

Protects Through Hundreds Of Wet-Dry Cycles

BioDoor Dual Layer Formula

High-tech latex polymer invisibly binds active ingredients to virtually any indoor / outdoor surface. As a result, it resists being easily rinsed away by water or condensation like competitive products.

In the end, you get significantly longer protection against mold, mildew, germs, musty odors and dry rot. We guarantee it.

Residential & Commercial remediation, restoration, repairs, remodeling, new home construction, schools, office buildings, hotels, health clubs, mold and germs are everywhere!

Easy to Apply On All Surfaces

- ✓ Spray Until Slightly Damp
- ✓ Let Air Dry for About 1 Hour

- Use hand pump sprayer, airless sprayer with mist nozzle, or fogger.
- Can be applied to damp surfaces.
- After applying, check to ensure that you covered all target surfaces by shining a UV black light on them. Properly coated surfaces will glow.
- We recommend wearing dust mask, rubber gloves, protective eyewear.

Economical

- ✓ Saves Time, Cost & Hassle
- ✓ More Than Double the Surface Area Coverage vs Competitors

- Lasts through 100s of wet-dry cycles.
- Other products get rinsed away when first exposed to moisture, causing extra time/cost to frequently re-apply.
- Active ingredients are EPA / TSCA registered to inhibit 99.9% of mold, mildew and germs within 48 hours.
- For best results, first use Endurance BioBarrier Mold & Grime Cleaner Prep.

Applicators Get Free Benefits

- ✓ Free Directory Listing
- ✓ Free Customized Warranty
- ✓ Free Marketing Files

- Endurance BioBarrier wants to help applicators win new business.
- Download brochures, logos, and client cost savings spreadsheet.
